

GRP Enclosures

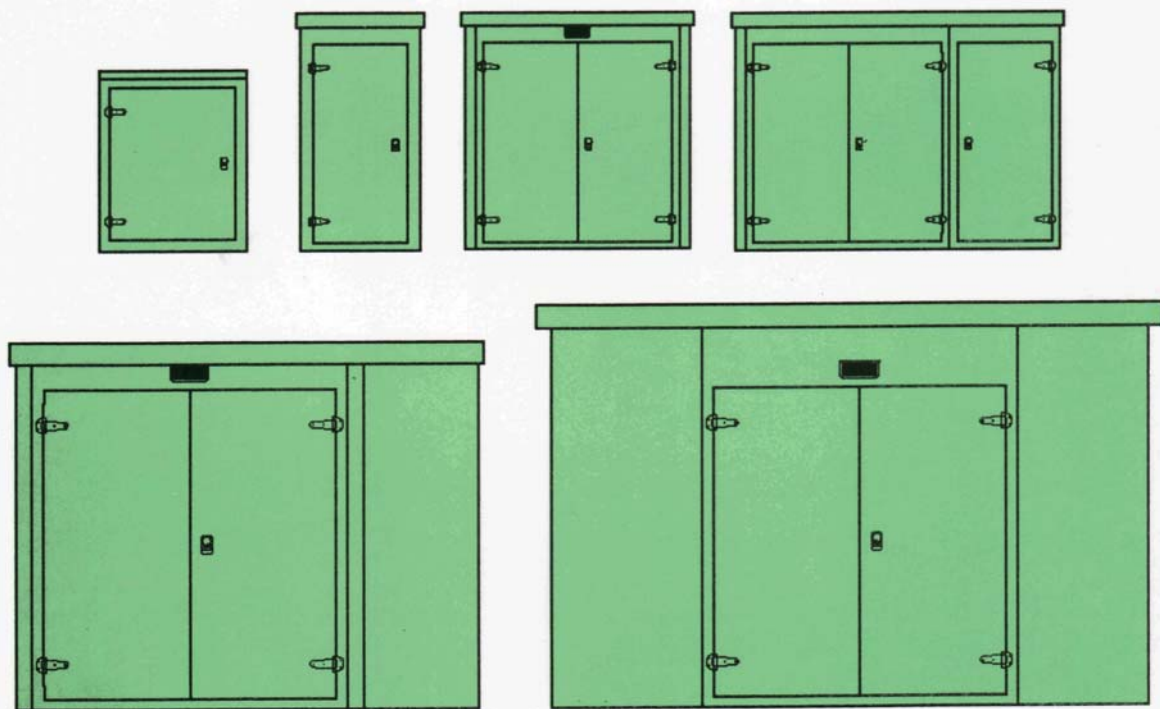

For over forty years, DEWEY WATERS continue to be leaders in the design and manufacture of GRP building components.

To meet customer demands for high impact, vandal resistant buildings, DEWEY WATERS have invested, developed and manufactured a new and wide range of *GRP Enclosures* for Industry.

Specifically designed and engineered to meet DEWEY WATERS own exacting standards, the new high performance *GRP Enclosure* range is available as small freestanding Kiosks to large Walk-in Modular buildings, all providing secure protection for Industrial Instrumentation and Equipment. Optional equipment includes generator access (cat flap), anti-frost heating, lighting and additional ventilation etc.

GRP Enclosures can be supplied in most colours within the BS5252 range.

Self supporting and lightweight, DEWEY WATERS *GRP Enclosures* can be assembled prior to delivery or should access be a problem, can be supplied in panel form to be erected on site by DEWEY WATERS own staff.

Enclosures come in an extensive range of sizes and layout configurations.

Contact DEWEY WATERS on (01934) 421477
for consultation and advice.
